

Optional menu: All these activities are linked to the topic we are covering this term — *Let's Play!*

To satisfy your appetite for more homework, take your pick from our menu!

LIGHT BITES

Option 1: Imagine you have lost a toy that is special to you. Create a Lost! poster to describe your toy to ensure it is safely returned to you.

Option 2: Design your own toy! Think about which toys you and your friends like most and why. Use these ideas to create a toy or your own. Label your design with the materials you would use to make it.

Option 3: Create a comic with your favourite toy as the main character! What adventures will they have? What mysteries will they solve?

Specials

Using books from the library or online videos, create a factfile all about Islam and Muhammad (PBUH).

MAINS

Option 1: Lego is sooo popular! Can you research where it came from and why it remains so loved by children and adults all over the world?

Option 2: Using items from your recycling tub, make a new toy or game to play with your family.

Option 3: Write a diary entry in role as your favourite toy. What did they do today? Anything exciting? Anything scary? Picture the world from their point of view.

SIDES

Interview a family member and ask them all about the sort of toys and games they played with when they were your age.

DESSERTS

Learn your multiplication and division number facts, e.g. $2 \times 5 = 10$, $5 \times 2 = 10$, $10 \div 5 = 2$ and $10 \div 2 = 5$ off by heart for 2s, 5s and 10s up to the 12th multiple.

EXTRAS

Train to be an Olympian long jump champion! How far can you jump from a standing position? Record your scores in a table and see if you can beat your personal best!
